## SCHEDULE A

### Investment Management Guidelines for Delaware College Investment Plan Trust

The Trustees hereby establish investment guidelines dated November 16, 2006, as amended and revised on October 4, 2011, February 13, 2012, August 1, 2013, January 1, 2015, October 13, 2016, and October 24, 2017.

The Trust is composed of a number of investment pools ("Portfolios") dedicated exclusively to the management of the assets contributed by donors for ultimate direction to qualified higher education expenses.

There shall be three types of Portfolios. The first type of Portfolio ("changing allocation Portfolios") shall be designed to accommodate beneficiaries of similar ages. The second type of Portfolio ("static allocation Portfolios") shall be designed to accommodate beneficiaries without regard to age. The changing allocation Portfolios and the static allocation Portfolios shall be referred to collectively as the non-OA Portfolios. The third type of Portfolio ("open architecture Portfolios") shall be designed to accommodate beneficiaries of similar ages through investment in shares of mutual funds advised by investment advisers that are not affiliated with Fidelity Management & Research Co. ("Third Party Funds") or a combination of Fidelity Funds and Third Party Funds. The Portfolios shall have the following characteristics:

#### I. INVESTMENT OBJECTIVES

The investment objective of each changing allocation Portfolio shall be capital appreciation with reasonable safety of principal, consistent with the ages of the beneficiaries. For younger beneficiaries the Investment Manager shall place a greater emphasis on capital appreciation. For older beneficiaries, the Investment Manager shall place a greater emphasis on preservation of capital.

There shall be three static allocation Portfolios investing primarily in mutual funds that are not index funds. The first Portfolio shall invest 100% of its assets in equity and commodity-related mutual funds. The second Portfolio shall maintain a neutral mix over time of approximately 70% of assets in equity mutual funds. The third Portfolio shall be invested approximately 45% in bond mutual funds and 55% in money market mutual funds at all times.

The investment objective of the first static allocation Portfolio shall be growth of capital over the long term.

The investment objective of the second static allocation Portfolio shall be to maximize total return over the long term by allocating its assets among equity, bond, and commodity-related mutual funds.

The primary investment objective of the third static allocation Portfolio is preservation of capital by allocating its assets among bond and money market mutual funds. Income is a secondary objective.

Each of the above Portfolios shall have a counterpart that is invested exclusively in index-based mutual funds. Each such index-based Portfolio shall have an investment objective identical to its counterpart that invests primarily in non index-based mutual funds.

In addition, there shall be Portfolios that each invest in a single underlying index-based mutual fund. The investment objective of each such Portfolio shall be the same as the investment objective of the mutual fund in which it invests. Initially, the mutual funds in which such Portfolios invest shall be as follows: Fidelity 500 Index Fund; Fidelity Total Market Index Fund; Fidelity Global Ex US Index Fund; Fidelity Intermediate Treasury Bond Index Fund.

The investment objective of each open architecture Portfolio shall be capital appreciation with reasonable safety of principal, consistent with the ages of the beneficiaries. For younger beneficiaries the Investment Manager shall place a greater emphasis on capital appreciation. For older beneficiaries, the Investment Manager shall place a greater emphasis on preservation of capital.

Finally, there shall be a Portfolio that invests exclusively in Fidelity Government Cash Reserves, a non-index based money market mutual fund. Its investment objective shall be the same as that of Fidelity Government Cash Reserves, as stated in the then-current prospectus for the mutual fund.

## II. INVESTMENT PHILOSOPHY

The Trust's investment philosophy seeks to take advantage of the opportunities available through investing in separate portfolios of mutual funds geared to the Investment Objectives set forth above. For the non-OA Portfolios, the Investment Manager shall set the allocation of each Portfolio's assets in a portfolio of Fidelity Investments mutual funds, which shall include funds held out with the Fidelity name, consistent with the investment objectives of that Portfolio. For the open architecture Portfolios, the Investment Manager shall actively manage the allocation of the applicable Portfolio's assets in a portfolio of Third Party Funds, or a combination of Fidelity Funds and Third Party Funds, consistent with the objectives of such Portfolios.

## III. PORTFOLIO GUIDELINES

### A. Universe

For the non-OA Portfolios, the available universe shall include a broad list of Fidelity Investments mutual funds with investment objectives and policies running across several market category and capitalization lines, although the focus of the Investment Manager should usually be on larger and more seasoned funds.

For the Open Architecture Portfolios, the Trustees shall control the selection of the fund universe (subject to the Investment Manager's confirmation that the fund universe is sufficient to build properly diversified and appropriate Open Architecture Portfolios). The universe of mutual funds for potential inclusion in the Open Architecture Portfolios shall be composed of Fidelity Funds and Third Party Funds that participate in Fidelity's FundsNetwork; provided, however, that in the event that the Open Architecture Portfolios select a fund for which a transaction fee is charged to the Portfolio in connection with the purchase of such fund, FMR or its affiliates shall reimburse the Portfolio for any such transaction fee. .

In addition, to the extent that any Portfolio receives securities or other distributions from any mutual fund as result of a redemption of such fund's shares, the Investment Manager shall have the authority to manage and/or dispose of any such securities on behalf of the Portfolios. The Investment Manager may, at its discretion, establish one or more transition accounts on behalf of the Trust to facilitate the management of any such assets.

**B. Investment Restrictions**

The Portfolios will not make any investments other than those set forth in Section III.A.

**C. Changes in Portfolio Guidelines**

In consultation with the Investment Manager, the Trustees may make such changes from time to time in the investment guidelines set forth in A and B above as it deems beneficial to accomplish the purposes of the Trust. Changes to the investment guidelines applicable to the Open Architecture Portfolios may be made by the Trustees by written notice to the Investment Manager and shall be subject to the approval and acceptance of the Investment Manager, such approval or rejection to be provided in writing within 30 days. Any approved changes to the investment guidelines shall be implemented by the Investment Manager as soon as reasonably practicable following such approval.

**SCHEDULE B**

**Fee Schedule**

The Investment Manager shall be entitled to receive a fee as follows:

Except as provided in the following paragraph: With respect to the non-OA Portfolios, (i) for Portfolios that do not invest primarily in index funds, the Trustees shall pay to the Investment Manager a fee accrued and computed daily and payable monthly at an annual rate of 0.15% of the net assets in all Portfolios not invested primarily in index funds; and (ii) for Portfolios that invest exclusively in index funds, the Trustees shall pay to the Investment Manager a fee accrued and computed daily and payable monthly at an annual rate of 0.08% of the net assets in all Portfolios invested exclusively in index funds. For the open architecture Portfolios, the Trustees shall pay to the Investment Manager a fee accrued and computed daily and payable monthly at

an annual rate of 0.30% of the assets in all Accounts invested in such Portfolios. Payment shall be made immediately following the end of each calendar month.

With respect to an amount equal to the sum of the amounts in all accounts in the Fidelity Advisor 529 Plan where the Participant is a resident of Delaware at the time of the establishment of the Account, the Investment Manager's fee under this Agreement shall be reduced by an amount accrued and computed daily and payable monthly at an annual rate of 0.10% of the assets in such Accounts.

The Investment Manager will collect all fees from the assets of the Trust. Fees shall be payable solely out of the assets in the Accounts.

The Trustees agree and acknowledge that in addition to the charges described above, each of the mutual funds that are chosen by the Investment Manager also has investment management fees and expenses that reduce the return on the applicable mutual fund but are not payable by the Trust or any Portfolios thereof, and (2) a portion of such underlying fund fees or expenses are payable to Investment Manager or its affiliates for fund management or other services provided in connection with such funds.

The Investment Manager agrees and acknowledges that no assets of the Trust shall be invested in any mutual fund if a sales load would be imposed on that investment.
