State Treasurer and Board Chair's Message to Participants

Dear Participant:

On behalf of the State of Delaware and the Plans Management Board, we are pleased to provide you with your Delaware College Investment Plan (the "Delaware Plan") Annual Report as of December 31, 2020. The Annual Report is designed to provide you with an opportunity to review the Delaware Plan in depth, including the performance of the Portfolios, along with expense, holdings, asset allocation and investment strategy information. Additionally, the *Management's Discussion of Fund Performance* provides commentary from the Plan's Co-Portfolio Managers, Andrew Dierdorf and Brett Sumsion, on the performance of the Portfolios and the financial markets over the past year.

We are pleased to offer our Delaware Plan Participants a diverse selection of investments to help achieve their college savings goals. The Delaware Plan includes age-based and risk-based (i.e., static) Portfolios that invest primarily solely in Fidelity actively managed funds (i.e., Fidelity Funds Portfolios), a combination of Fidelity actively-managed and Fidelity index funds (i.e., Fidelity Blend Portfolios) and Fidelity Index Portfolios that are invested in Fidelity index funds.

As you consider your investment options, you can also take comfort in knowing that earnings on your Delaware Plan investments will grow tax deferred and that withdrawals for qualified education expenses will be free from federal income tax and Delaware personal income tax. As a reminder, however, Delaware Plan participants should consult with a tax advisor regarding federal income tax considerations related to their account. Lastly, we encourage you to call Fidelity's dedicated college planning representatives at 1-800-544-1655 for a personalized review of your Delaware Plan account to help determine whether your investments are appropriately allocated based on your specific college savings goals.

Thank you for choosing the Delaware College Investment Plan. We look forward to serving your needs for years to come.

Sincerely,

Colleen C. Davis, State Treasurer

Sincerely,

Donna Vieira Chair, Plans Management Board

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements and financial highlights in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements and financial highlights that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the Portfolios, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

Independent Auditor's Report – continued

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of each of the Portfolios constituting the Delaware College Investment Plan as of December 31, 2020, and the results of their operations and the changes in their net assets included in the year then ended, and the financial highlights for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

The *Performance: The Bottom Line and Management's Discussion of Fund Performance* preambles for each of the Portfolios have not been subjected to the auditing procedures applied in the audit of the basic financial statements and financial highlights, and accordingly, we do not express an opinion or provide any assurance on them.

Very truly yours,

Belfint. Lyons & Shuman, P.A.

Delaware College Portfolio (Fidelity Funds)

Performance – The Bottom Line (Unaudited)

Average annual total returns take the Portfolio's cumulative return, located on the Fidelity.com web site, and show you what would have happened if the Portfolio had performed at a constant rate each year. During periods of reimbursement by Fidelity, a Portfolio's total return will be greater than it would be had the reimbursement not occurred.

Average Annual Total Returns

Periods ended December 31, 2020	Past 1 year	Past 5 years	Past 10 years

The chart shows how the value of that investment would have changed, and also shows how the Delaware Portfolio 2021 Composite Index performed over the same period.

Understanding Performance

How a portfolio did yesterday is no guarantee of how it will do tomorrow. The stock market, for example, has a history of long-term growth and short-term volatility. In turn, the unit price and return of a portfolio that invests in stocks will vary. That means if you sell your units during a market downturn, you might lose money. But if you can ride out the market's ups and downs, you may have a gain.

Understanding Performance

How a portfolio did yesterday is no guarantee of how it will do tomorrow. The stock market, for example, has a history of long-term growth and short-term volatility. In turn, the unit price and return of a portfolio that invests in stocks will vary. That means if you sell your units during a market downturn, you might lose money. But if you can ride out the market's ups and downs, you may have a gain.

Management's Discussion of Fund Performance

Market Recap: Global financial markets were highly volatile and unpredictable in 2020, a year that will be remembered by most investors for the impact of the coronavirus pandemic. Investor expectations shifted in response to the early-2020 outbreak, contributing to a sharp decline for risk assets, followed by a historic rebound. The crisis and containment efforts led to broad contraction in economic activity and dislocation in financial markets. Rapid and expansive monetary- and fiscal-policy responses partially offset the economic disruption and caused investors to reassess their expectations, leading to stronger performance for many assets from late March through the end of the year.

Non-U.S. equities gained 10.81% in 2020, according to the MSCI ACWI (All Country World Index) ex USA Index. Emerging markets (+19%) performed best, followed by Japan (+15%) and Europe ex U.K. (+12%). Conversely, the U.K. (-10%), Canada (+6%) and Asia Pacific ex Japan (+7%) lagged. By sector, information technology (+46%) was the top performer, while consumer discretionary (+23%) and materials (+22%) also outpaced the index. Energy (-23%), real estate (-9%) and financials (-4%) all underperformed.

The Dow Jones U.S. Total Stock Market Index gained 20.79% for the year. After a sharp decline in the first quarter (-20.96%) U.S. equities reversed course and closed the year at an all-time high. Among sectors, consumer discretionary (+47%) and information technology (+46%) led, whereas energy (-33%) fared worst, followed by real estate (-5%). Large-cap stocks performed on par with smaller-caps, while growth stocks handily outpaced value stocks. Commodities lagged equities.

Turning to fixed income, U.S. taxable investment-grade bonds (the Bloomberg Barclays U.S. Aggregate Bond Index) rose 7.51%, as most categories generated a solid gain. Corporate bonds (+9.35%) led the way, along with commercial mortgage backed securities (+8.11%), Treasury securities (+8.00%) and government bonds (7.94%). Agency bonds (+5.48%) and mortgage-backed securities (+3.87%) had smaller gains. Extended (non-core) categories outside the index also generated positive returns, including Treasury Inflation-Protected Securities (+10.99%), high-yield bonds (+6.07%), emerging-markets debt (+5.88%) and floating-rate bank loans (+3.50%).

Comments from Co-Portfolio Managers Andrew Dierdorf and Brett Sumsion: For the year, absolute returns were positive for all the age-based (i.e., College, 2021, 2024, etc.) and risk-based (i.e., aggressive growth, moderate growth and conservative) strategies, including both Fidelity Funds, Fidelity Blend and Fidelity Index Portfolios. For the age-based Fidelity portfolios, the longer-dated portfolios with higher allocations to equities performed best on both an absolute basis, largely because U.S. and non-U.S. equities were the best-performing asset classes in 2020. By comparison, the nearer-term age-based Fidelity portfolios with higher allocations to fixed income and short-term debt securities largely generated lower positive absolute returns in 2020. Relative performance was generally strong among the age-based portfolios, while the two most conservative asset allocations (DE College Portfolio and DE 2021 Portfolio) underperformed. Outperformance among underlying non-U.S. equities, U.S. equities and U.S. investment-grade bond funds drove the largely favorable results for the actively managed, age-based Fidelity portfolios. Within non-U.S. equities, Fidelity® Series Emerging Markets Fund was a key contributor to the age-based Fidelity Portfolios' relative results. This fund's 24.72% gain topped the 18.32% return of its benchmark, the MSCI Emerging Markets Index. Active asset allocation decisions detracted from the age-based portfolios' performance relative to Composites in 2020, due mostly to an underweight position in U.S. equities, positioning within U.S. equities and non-Composite exposure to commodities. The age-based Fidelity Index portfolios performed roughly in line with their respective composite benchmarks for the 12 months. Each of the risk-based Fidelity Funds Portfolios outperformed its Composite index the past year. *(For specific performance results for all portfolios, please refer to the performance section of this report.)*

Fidelity Funds Portfolios invest in a combination of Fidelity equity, commodity, fixed-income and short-term funds, which are primarily actively-managed by Fidelity Management & Research Company LLC (FMR), an affiliated adviser or sub-adviser, or Geode Capital Management, LLC (Geode), a registered investment adviser. Fidelity Index Portfolios invest in a combination of Fidelity equity, commodity, fixed-income and short-term funds, which are primarily passively managed by FMR, an affiliated adviser or sub-adviser, or Geode. There are individual fund Portfolios which invest in a single equity, fixed-income or money market fund, also managed by FMR, an affiliated adviser or sub-adviser, or Geode. Fidelity Delaware Bank Deposit Portfolio invests in an interest-bearing account held at Wells Fargo Bank, N.A. Fidelity Blend Portfolios invest in a combination of Fidelity equity, commodity, fixed-income and short-term funds which are both actively- and passively-managed by FMR, an affiliated adviser or sub-adviser, or Geode. Fidelity equity, commodity, fixed-income and short-term funds are collectively referred to as Underlying Funds.

2. Significant Accounting Policies:

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), which require management to make certain estimates and assumptions at the date of the financial statements. Actual results could differ from those estimates. Subsequent events, if any, through the date that the financial statements were issued, March 30, 2021, have been evaluated in the preparation of the financial statements. The Portfolios qualify as investment companies under FASB ASC 946 *Financial Services – Investment Companies* and follow the accounting and reporting guidance for investment companies. The Portfolios' Schedules of Investments or Statements of Assets and Liabilities lists each of the Underlying Funds as an investment of each Portfolio but do not include the underlying holdings of each Underlying Fund. The following summarizes the significant accounting policies of the Portfolios:

Investment Valuation. Investments are valued as of 4:00 p.m. Eastern time on the last calendar day of the period. Each Portfolio categorizes the inputs to valuation techniques used to value its investments into a disclosure hierarchy consisting of three levels as shown below:

Level 1 – quoted prices in active markets for identical investments

Level 2 – other significant observable inputs

Level 3 – unobservable inputs (including each Portfolio's own assumptions based on the best information available)

Valuation techniques used to value each Portfolio's investments by major category are as follows: Investments in the Underlying Funds are valued at their closing net asset value (NAV) each business day and are categorized as Level 1 in the hierarchy. As of December 31, 2020, all investments held by the Portfolios are categorized as Level 1 under the Fair Value Hierarchy.

Investment Transactions and Income. For financial reporting purposes, the Portfolios' investment holdings and NAV include trades executed through the end of the last business day of the period. The NAV per unit for processing participant transactions is calculated as of the close of

Notes to Financial Statements – continued

business of the New York Stock Exchange (NYSE), normally 4:00 p.m. Eastern time, and includes trades executed through the end of the prior business day. Gains and losses on securities sold are determined on the basis of average cost. Income and capital gain distributions from the Underlying Funds, if any, are recorded on the ex-dividend date. Interest income is accrued as earned. There are no distributions of net investment gains or net investment income to the Portfolios' participants or beneficiaries.

Expenses. Expenses are recorded on the accrual basis. Expense estimates are accrued in the period to which they relate and adjustments are made when actual amounts are known. Expenses included in the accompanying financial statements reflect the expenses of each Portfolio and do not include any expenses associated with the Underlying Funds.

Other. There are no unrecognized tax benefits in the accompanying financial statements in connection with the tax positions taken by each Portfolio. The Portfolios do not file any tax returns since the Trust is exempt from federal and state income tax under Section 529 of the IRC.

3. Fees:

The Trustee has entered into a Management and Administrative Services agreement with Fidelity Brokerage Services, LLC (FBS) to provide administrative, record keeping, distribution and marketing services to the Trust. According to this agreement and a related investment advisory agreement with FMR, an investment adviser registered under the Investment Advisers Act of 1940 that provides investment management services to the Trust, a Management and Administration Fee is charged to the Portfolios at an annual rate based on the net assets of each Portfolio. The Management and Administration Fee has up to three components, a Program Manager Fee that is paid to FMR, a Bank Administration Fee that is paid to FBS and a State Fee that is paid to the Trustee.

For Fidelity Funds Portfolios that invest primarily in actively-managed Fidelity mutual funds, the Program Manager Fee is charged at an annual rate of .15%. For Fidelity Index Portfolios that invest in Fidelity index mutual funds, the Program Manager Fee is charged at an annual rate of .08%. For Fidelity Blend Portfolios that invest in a combination of actively-managed Fidelity mutual funds and Fidelity index mutual funds, the Program Manager Fee is charged at an annual rate of .10%. For Fidelity Delaware Bank Deposit Portfolio, the Program Manager Fee is charged at an annual rate ranging from .00% to .05% depending on the daily Federal Funds Target Rate.

Effective February 8, 2021, for Fidelity Blend Portfolios, the Program Manager Fee was reduced from .10% to .08%.

The Bank Administration Fee paid to Fidelity for its administration services in connection with Fidelity Delaware Bank Deposit Portfolio is charged at an annual rate ranging from .00% to .40% depending on the daily Federal Funds Target Rate. The Bank Administration Fee is charged only to the Bank Deposit Portfolio.

For Fidelity Funds Portfolios that invest primarily in actively-managed Fidelity mutual funds, the State Fee is charged at an annual rate of .05%. For Fidelity Index Portfolios that invest in Fidelity index mutual funds, the State Fee is charged at an annual rate of .01%. For Fidelity Blend Portfolios that invest in a combination of actively-managed Fidelity mutual funds and Fidelity index mutual funds, the State fee is charged at an annual rate of .04%. For Fidelity Delaware Bank Deposit Portfolio, the State Fee is charged at an annual rate of .05%.

Management Fees. Portfolio Management Fees are assessed against assets and paid to the Program Manager for Fidelity Funds Portfolios, Fidelity Index Portfolios and Fidelity Blend Portfolios. For Age-Based Fidelity Funds Portfolios and Age-Based Fidelity Blend Portfolios, this fee will be reduced annually until a Portfolio's asset allocation aligns and merges with the College Portfolio. The fee reduction is reflected in the following Portfolio Management Fee Rolldown Schedule. The current Portfolio Management Fees for all Portfolios is disclosed in the most recent College Investment Plan Fact Kit.

For the period ended December 31, 2020 FMR voluntarily agreed to waive certain fees in order to avoid a negative yield for Delaware Money Market Portfolio and Delaware Bank Deposit Portfolio. Waivers are shown on the Portfolio's Statement of Operations under the caption "Expense reductions".

Delaware Money Market Portfolio	\$31,056
Delaware Bank Deposit Portfolio	\$ 841

4. Other Information:

In the normal course of business, the Portfolios may enter into contracts that provide general indemnifications. The Portfolios' maximum exposure under these arrangements is unknown as this would be dependent on future claims that may be made against the Portfolios. The risk of material loss from such claims is considered remote.

The Portfolios do not invest in the Underlying Funds for the purpose of exercising management or control; however, investments by the Portfolios within their principal investment strategies may represent a significant portion of an Underlying Fund's net assets. At the end of the period, no Portfolios held a significant portion of the outstanding shares of any Underlying Fund.

5. Coronavirus (COVID-19) Pandemic.

An outbreak of COVID-19 first detected in China during December 2019 has since spread globally and was declared a pandemic by the World Health Organization during March 2020. Developments that disrupt global economies and financial markets, such as the COVID-19 pandemic, may magnify factors that affect the Portfolios' performance.
