INVESTMENT ARCHITECTURE UPDATE

Status of investment manager conversion

Mr. Krimmel provided an update on the conversion to the new investment architecture. He explained the ways in which the assets in the portfolios were separated from the legacy managers and redistributed to the new managers. Mr. Krimmel reported that the new architecture is largely in place and that the

remaining reallocation work is related to managers achieving the desired duration and credit quality within each portfolio.

INVESTMENT ACCOUNTS UPDATE

Land and water account contract extension

Ms. Gonzalez updated the Subcommittee on the extension of the land and water endowment account contracts. The current agreements have been reviewed against the new investment manager contracts. OST intends to update the insurance requirements, invoicing requirements, and pricing into the updated contracts, so that the land and water contracts will be consistent with the new investment manager contracts that were approved in January. These updates will be presented for approval at the full Board meeting on May 23, 2018.

School scholarship onboarding status

Mr. McVay notified the Subcommittee that all outside investment accounts have been closed and brought into the state's endowment portfolios. All accounting and reporting issues have been reconciled by Northern Trust and the Division of Accounting.

SCHOOL AND SPECIAL FUND RATE REVIEW

Updated on School and Special Fund Rate Methodology

Ms. Druck updated the Subcommittee on OST's annual review of the School and Special Fund (SSF) interest rate calculation. Based on the findings of the review, OST proposed a change to the underlying ratio that the SSF rate calculation is based upon. Such a change would result in a rate that is more reflective of market conditions and more equitable. OST also recommended that the Board consider establishing a policy for how interest rate payments should be handled in negative return months.

Treasurer Simpler went on to explain some of the challenges present in the rate that the Board approved in FY18, as well as the rate that was used prior to FY18.
