

ASPIRE529

The World Is Yours

OVERCOME FINANCIAL BARRIERS...

Delaware Aspire529 is a program offered by the Office of the State Treasurer, for youth experiencing and aging out of the foster care system and helps them pay for expenses related to college or vocational training.

Launched in 2022, the annual awards are available on a first-come, first-served basis. Applicants who meet the eligibility requirements are encouraged to submit applications.

The award's overarching objective is to help foster youth overcome financial barriers that may prevent them from seeking a college degree or certificate of vocational training.

A total of up to 20 qualified applicants are eligible to receive an one-time award of \$529.

In order to receive the \$529 award, eligible applicants must complete a financial education course provided by the program's partner Stand by Me.

An award may be used towards accompanying costs associated with obtaining a degree in higher education such as for books and school supplies, materials required for skills training, transportation costs and childcare. **Awards will be made payable to successful entries by September 1, 2023.**
