Partnership for a Dignified Retirement (PDR)

- Delaware joined the PDR in December 2023. Partnership is led by Colorado, with Maine the first state to join. Interstate alliance accelerated our launch and gives us economies of scale.
- Alliance continues to grow. Since we joined, Vermont, Nevada, and Minnesota have also joined.
- PDR was nationally recognized by the Defined Contribution Institutional Investment Association at the 14th annual Excellence & Innovation Awards held Oct. 28.
- Next year, we'll present the Board with language updates to the interstate agreement. An important goal will be continuing to ensure that the interests of small states are well served.
